# 2020 Catalog of Training Sessions

## CAPITAL CHAPTER
- **February 19, 2020** Blower Technologies, Selection and Energy Evaluation ........................................ 3
- **April 28, 2020** Fundamentals of Occupational Chemical Exposure. **POSTPONED, DATE TBA** 4
- **May 19, 2020** Anaerobic Digestion Operations and Biogas Safety Training .......................... 5

## CENTRAL CHAPTER
- **March 18, 2020** Green Infrastructure Maintenance **POSTPONED, DATE TBA** 6
- **May 7, 2020** Emergency Response and Crisis Management for Water and Wastewater Facilities **POSTPONED, DATE TBA** 7
- **September 23, 2020** Anaerobic Digestion Operations and Biogas Safety Training 8

## GENESEE VALLEY CHAPTER
- **February 27, 2020** Emergency Response and Crisis Management for Water and Wastewater Facilities 9
- **May 14, 2020** Blower Technologies, Selection and Energy Evaluation **POSTPONED, DATE TBA** 10

## LONG ISLAND CHAPTER
- **March 10, 2020** Mathematics for Water and Wastewater Operators .......................... 11
- **May 5, 2020** Anaerobic Digestion Operations and Biogas Safety Training .......................... 12

## LOWER HUDSON CHAPTER
- **April 14, 2020** Green Infrastructure Maintenance **POSTPONED, DATE TBA** 13
- **October 20, 2020** Anaerobic Digestion Operations and Biogas Safety Training ........................ 14
- **November 4, 2020** Mathematics for Water and Wastewater Operators .......................... 15

## WESTERN CHAPTER
- **January 28, 2020** Anaerobic Digestion Operations and Biogas Safety Training ........................... 16
- **June 17, 2020** Confined Space Awareness. **POSTPONED, DATE TBA** 17
- **July 14, 2020** Mathematics for Water and Wastewater Operators .......................... 18
- **November 17, 2020** Blower Technologies, Selection and Energy Evaluation ........................ 19

## VIRTUAL TRAINING via ZOOM: ALL CHAPTERS
**MEMBRANE BIOREACTORS LUNCH & LEARN WEBINAR SERIES (4-Part Series)**
- **June 17, 2020** MBR 101: Types, Terms, Treatment and Components .......................... 20
- **June 24, 2020** MBR System Performance .......................... 20
- **July 1, 2020** MBR Operations .......................... 20
- **July 8, 2020** Fishbone Analysis of MBRs .......................... 20

## Locations, Logistics ........................................................................ 21
## Faculty .................................................................................. 22-23
## Training Calendar ................................................................... 24
## Registration ......................................................................... 25
February 19  |  Blower Technologies, Selection and Energy Evaluation

Instructors  |  Jennifer Kintzer, Aerzen USA
            |  Scott Trail, Aerzen USA

Location   |  Saratoga County Fire Training Center, 6010 County Farm Road, Ballston Spa, NY 12020

Contact Hours  |  RTC 17909-20, 6.0 hours; PDH, 6.0 hours

Course Schedule

8:00 am  |  Registration
8:30 am  |  Welcome and introduction
8:45 am  |  Review of blower technologies in wastewater plant air applications
        |  a. Positive displacement lobe
        |  b. Multistate centrifugal
        |  c. Turboblowers
        |  d. Low pressure compressor
        |  e. Geared turbo
10:00 am  |  Break
10:15 am  |  Proper Selection of blower technologies based on type of application
        |  Machine sizing factors
        |  f. Varying pressure applications
        |  g. Varying flow applications
        |  h. Low flow applications
        |  i. High flow applications
        |  j. Intermittent on-off applications
12:00 pm–1:00 pm  |  Lunch
1:00 pm  |  Installation factors (indoor/outdoor, footprint, machine cooling, noise)
2:15 pm  |  Break
2:30 pm  |  Life cycle cost evaluation (Energy, O&M)
3:45 pm  |  Q&A, review
4:00 pm  |  Course adjourned
April 28 — Fundamentals of Occupational Chemical Exposure

This program is part of a NYS DOL HAB grant #C19006GG to the Western New York Council on Occupational Safety and Health (WNYCOSH).

Instructor
Nellie J. Brown, MS, CIH

Location
Saratoga County Fire Training Center, 6010 County Farm Road, Ballston Spa, NY 12020

Contact Hours
ATC 152-3438-18196, 6.0 hours; RTC 17912-20, 6 hours

Course Schedule
8:00 am — Registration
8:30 am — Physical hazards of chemicals: Fundamentals, terms, applications
Health hazards of chemicals: Fundamentals, terms, applications
  • Routes of entry
    o Factors affecting adverse health effects from exposure
    o Fate of chemicals in the body
10:15 am — Break
10:30 am — Routes of entry (continued)
  • Acute and chronic exposure
    o Occupational exposure limits
    o Vapor pressure; estimating worst case scenario
    o Occupational exposure limits and atypical work hours
    o Health conditions and/or genetic predispositions
12:00 pm–1:00 pm — Lunch
1:00 pm — Acute and chronic exposure (continued)
  • Using MSDS information to compare risks and find safer alternatives
    o Water solubility
    o Vapor hazard ratio
    o Flash point and explosive limits
2:15 pm — Break
2:30 pm — Using MSDS information to compare risks and find safer alternatives (continued)
  o Hierarchy of controls: Ventilation, PPE, work practices
4:00 pm — Course adjourned

Capital Chapter Training Session
POSTPONED, DATE TBA
## Capital Chapter Training Session

### May 19

**Anaerobic Digestion Operations and Biogas Safety Training**

| Instructors | Sara Martin, PE, Critical Path Engineering Solutions  
|             | George Bevington, Barton & Loguidice  
|             | Frank DeOrio, Ramboll  
|             | Mark Greene, PhD, Ramboll  
| Location    | Saratoga County Fire Training Center, 6010 County Farm Road, Ballston Spa, NY 12020  
| Contact Hours | RTC 17908-20, 6.0 hours; PDH, 6.0 hours  

### Course Schedule

- **8:00 am**  
  Registration  
- **8:15 am**  
  Overview of anaerobic digestion  
- **9:00 am**  
  Operational overview of digesters and the importance of nutrients and process control  
- **9:45 am**  
  Break  
- **10:00 am**  
  Digester start-up and sour digesters  
- **10:45 am**  
  Codigestion  
- **11:30 am**  
  Design considerations  
- **12:00 pm–12:30 pm**  
  Lunch  
- **12:30 pm**  
  Case studies  
- **1:30 pm**  
  Biogas utilization and safety  
- **2:30 pm**  
  Ground breaking genetic research on anaerobic microbes  
- **3:00 pm**  
  Q&A; Course adjourned
Central Chapter Training Session

March 18  Green Infrastructure Maintenance

Instructor    Cosimo Pagano, PE, CPESC, CPSWQ, CPMSM
Location      Onondaga County WEP Metro WWTP, 650 Hiawatha Boulevard West, Syracuse, NY 13204
Contact Hours  PDH, 6.0 hours

Course Schedule

8:00 am   Registration
8:30 am   Introduction
8:45 am   Surface filtration/infiltration systems (Bioretention/rain gardens/swales)
          • Applications
          • Performance and lessons learned
          • Maintenance and inspection procedures
9:45 am   Porous Paving (Porous asphalt/porous concrete/pre-cast units)
          • Applications
          • Performance and lessons learned
          • Maintenance and inspection procedures
10:45 am  Break
11:00 am  Standard management practices (Pond/wetlands/structures)
          • Applications
          • Performance and lessons learned
          • Maintenance and inspection procedures
12:00 pm–1:00 pm  Lunch
1:00 pm   Sustainable landscape management (Riparian areas/plantings/conservation buffers)
          • Applications
          • Performance and lessons learned
          • Maintenance and inspection procedures
2:15 pm   Break
2:30 pm   Examples of maintenance for local/regional GI practices
3:45 pm   Q&A, discussion
4:00 pm   Course adjourned

POSTPONED, DATE TBA
### May 7

**Emergency Response and Crisis Management for Water and Wastewater Facilities**

This program is part of a NYS DOL HAB grant #C19006GG to the Western New York Council on Occupational Safety and Health (WNYCOSH).

#### Instructors
- Nellie J. Brown, MS, CIH
- Arthur Wheaton, MLR/HR

#### Location
- Holiday Inn, 75 North Street, Auburn, NY 13021

#### Contact Hours
- ATC 152-2269-17913, 6.0 hours; RTC 17906-20, 6.0 hours

#### Course Schedule
*(A simultaneous crisis scenario/exercise is interspersed throughout the day.)*

1:00 pm  |  • Planning for recovery
  (Exercise: Recovery plan)
  (Exercise: Identifying stakeholders)
  (Exercise: Prioritizing stakeholders)
2:15 pm  |  Break
2:30 pm  |  Communicating during and after a crisis
• Developing core messages
  (Exercise: Communicating with stakeholders and the media)
• Critical incident stress and debriefing
  (Exercise: Signs of emotional impact)
• Learning from crisis
4:00 pm  |  Course adjourned
May 14  **Blower Technologies, Selection and Energy Evaluation**

**Instructor**  Jennifer Kintzer, Aerzen USA  
**Location**  VanLare WWTP Training Room, 1574 Lake Shore Boulevard, Rochester, NY 14617  
**Contact Hours**  RTC 17909-20, 6.0 hours; PDH, 6.0 hours

**Course Schedule**

8:00 am  Registration  
8:30 am  Welcome and introduction  
8:45 am  Review of blower technologies in wastewater plant air applications  
   a. Positive displacement lobe  
   b. Multistate centrifugal  
   c. Turboblowers  
   d. Low pressure compressor  
   e. Geared turbo  
10:00 am  Break  
10:15 am  Proper Selection of blower technologies based on type of application  
   Machine sizing factors  
   f. Varying pressure applications  
   g. Varying flow applications  
   h. Low flow applications  
   i. High flow applications  
   j. Intermittent on-off applications  
12:00 pm–1:00 pm  Lunch  
1:00 pm  Installation factors (indoor/outdoor, footprint, machine cooling, noise)  
2:15 pm  Break  
2:30 pm  Life cycle cost evaluation (Energy, O&M)  
3:45 pm  Q&A, review  
4:00 pm  Course adjourned

Genesee Valley Chapter Training Session  
POSTPONED, DATE TBA
Long Island Chapter Training Session

March 10  Mathematics for Water and Wastewater Operators

Instructor  Robert Wither, PE
Location  Bergen Point WWTP, 600 Bergen Avenue, Babylon, NY 11704
Contact Hours  ATC 152-7576-17871; RTC 17907-20, 6.0 hours

Course Schedule

8:00 am  Registration
8:30 am  Basic mathematics review as it pertains to working at a treatment facility
          (Real world/Applied math or what you should know)
          Decimals, fractions, concentrations, % solids, understanding laboratory results
          from a mathematics perspective, basic equations
10:30 am  Break
10:45 am  Using mathematics to better understand treatment plants
          Calculation of unit process and unit operation organic, hydraulic and solids loadings,
          familiarity with standard treatment facility terms and design ranges
12:00 pm–1:00 pm  Lunch
1:00 pm  The importance of mathematics in at a treatment facility for both
          process control and proper dosing and calculation of mass quantities
          Activated sludge calculations, sludge handling, flow measurement
2:30 pm  Break
2:45 pm  Attendees participation concerning their specific facility
          Discussion and calculations
3:45 pm  Q&A, evaluations and wrap up
4:00 pm  Course adjourned
Long Island Chapter Training Session

May 5  Anaerobic Digestion Operations and Biogas Safety Training

Instructors
Sara Martin, PE, Critical Path Engineering Solutions
George Bevington, Barton & Loguidice
Frank DeOrio, Ramboll
Mark Greene, PhD, Ramboll

Location
Bergen Point WWTP, 600 Bergen Avenue, Babylon, NY 11704

Contact Hours
RTC 17908-20, 6.0 hours; PDH, 6.0 hours

Course Schedule
8:00 am  Registration
8:15 am  Overview of anaerobic digestion
9:00 am  Operational overview of digesters and the importance of nutrients and process control
9:45 am  Break
10:00 am Digester start-up and sour digesters
10:45 am Codigestion
11:30 am Design considerations
12:00 pm–12:30 pm Lunch
12:30 pm  Case studies
1:30 pm  Biogas utilization and safety
2:30 pm  Ground breaking genetic research on anaerobic microbes
3:00 pm  Q&A; Course adjourned

POSTPONED, DATE TBA
Lower Hudson Chapter Training Session

**April 14**

**Green Infrastructure Maintenance**

**Instructor**
Cosimo Pagano, PE, CPESC, CPSWQ, CPMSM

**Location**
Slater Chemical Co. Firehouse, 76 Old Glenham Road, Glenham, NY 12527

**Contact Hours**
PDH, 6.0 hours

**Course Schedule**

8:00 am  Registration
8:30 am  Introduction
8:45 am  Surface filtration/infiltration systems (Bioretention/rain gardens/swales)
  • Applications
  • Performance and lessons learned
  • Maintenance and inspection procedures
9:45 am  Porous Paving (Porous asphalt/porous concrete/pre-cast units)
  • Applications
  • Performance and lessons learned
  • Maintenance and inspection procedures
10:45 am  Break
11:00 am  Standard management practices (Pond/wetlands/structures)
  • Applications
  • Performance and lessons learned
  • Maintenance and inspection procedures
12:00 pm–1:00 pm  Lunch
1:00 pm  Sustainable landscape management (Riparian areas/plantings/conservation buffers)
  • Applications
  • Performance and lessons learned
  • Maintenance and inspection procedures
2:15 pm  Break
2:30 pm  Examples of maintenance for local/regional GI practices
3:45 pm  Q&A, discussion
4:00 pm  Course adjourned

Course adjourned
June 17  Confined Space Awareness

This program is part of a NYS DOL HAB grant #C19006GG to the Western New York Council on Occupational Safety and Health (WNYCOSH).

Instructor  Nellie J. Brown, MS, CIH
Location  TBD, Allegany or Cattaraugus County
Contact Hours  ATC, pending; RTC 17911-20, 6 hours

Course Schedule

8:00 am  Registration
8:30 am  Overview of the problem: What is a confined space? How serious is the issue?
          Exercise: Case History A

          Requirements of the standard; permit-required spaces
          Exercise: Case History B

          Types of confined space hazards-categories
          Exercise: Case History C

10:15 am–10:30 am  Break
10:30 am  Types of confined space hazards-in-depth
          Exercise: Case History D

          Protection and prevention by permit entry procedures
          Exercise: Case History E

          Protection and prevention by permit entry procedures (continued)
          Exercise: Case History F

12:00 pm–1:00 pm  Lunch
1:00 pm  Small groups exercise: Accident scenarios-identify hazards and appropriate permit program hazard control procedures.

2:15 pm–2:30 pm  Break
2:30 pm  Rescue procedures
          Basics
          Small groups exercise: “What do you do if ...?”

          Air Monitoring
          Basics
          Small groups exercise: “What’s happening here?”

4:00 pm  Course adjourned
Western Chapter Training Session

July 14  Mathematics for Water and Wastewater Operators

Instructor  Robert Wither, PE
Location  Fredonia Technology Incubator, 214 Central Avenue, Dunkirk, NY 14048
Contact Hours  ATC 152-7576-17872, 6.0 hours; RTC 17907-20, 6.0 hours

Course Schedule

8:00 am  Registration
8:30 am  Basic mathematics review as it pertains to working at a treatment facility
(Real world/Applied math or what you should know)
Decimals, fractions, concentrations, % solids, understanding laboratory results
from a mathematics perspective, basic equations
10:30 am  Break
10:45 am  Using mathematics to better understand treatment plants
Calculation of unit process and unit operation organic, hydraulic and solids loadings,
familiarity with standard treatment facility terms and design ranges
12:00 pm–1:00 pm  Lunch
1:00 pm  The importance of mathematics in at a treatment facility for both
process control and proper dosing and calculation of mass quantities
Activated sludge calculations, sludge handling, flow measurement
2:30 pm  Break
2:45 pm  Attendees participation concerning their specific facility
Discussion and calculations
3:45 pm  Q&A, evaluations and wrap up
4:00 pm  Course adjourned
Western Chapter Training Session

November 17  Blower Technologies, Selection and Energy Evaluation

Instructor  Jennifer Kintzer, Aerzen USA
Location  TBD, Lockport, NY 14094

Contact Hours  RTC 17909-20, 6.0 hours; PDH, 6.0 hours

Course Schedule

8:00 am  Registration
8:30 am  Welcome and introduction
8:45 am  Review of blower technologies in wastewater plant air applications
  a. Positive displacement lobe
  b. Multistate centrifugal
  c. Turboblowers
  d. Low pressure compressor
  e. Geared turbo
10:00 am  Break
10:15 am  Proper Selection of blower technologies based on type of application
  Machine sizing factors
  f. Varying pressure applications
  g. Varying flow applications
  h. Low flow applications
  i. High flow applications
  j. Intermittent on-off applications
12:00 pm–1:00 pm  Lunch
1:00 pm  Installation factors (indoor/outdoor, footprint, machine cooling, noise)
2:15 pm  Break
2:30 pm  Life cycle cost evaluation (Energy, O&M)
3:45 pm  Q&A, review
4:00 pm  Course adjourned
Membrane Bioreactors Lunch & Learn Webinar Series (4-part series)

Instructor
Kevin Crane, Kubota Membrane USA Corporation

Contact Hours
PDH, up to 4.0 hours; RTC, up to 4.0 hours

Time
12:00 pm-1:00 pm

Course Outline (Virtual Training via Zoom)

June 17
PART 1
MBR 101: Types, Terms, Treatment and Components
Membrane types
Terms and definitions
Treatment capabilities and system components

Biological Nutrient Removal
Nitrification/denitrification
Biological phosphorus removal
How MBR technology can improve performance

June 24
PART 2
Managing MBR System Performance
Biofilm, air scour and chemical cleaning and their role in optimizing system performance

July 1
PART 3
MBR Operations
Operating modes
System component selection
Control system architecture
Troubleshooting

July 8
PART 4
Fishbone Analysis of MBRs
Retrofitting conventional activated sludge with MBRs
Case study
Locations of Training Sessions

CAPITAL CHAPTER
• Saratoga County Fire Training Center
  6010 County Farm Road, Ballston Spa, NY 12020

CENTRAL CHAPTER
• Holiday Inn
  75 North Street, Auburn, NY 13021
• Onondaga County Water Environment Protection
  650 Hiawatha Boulevard West, Syracuse, NY 13204
• Utica College, Economic Crime & Justice Building, Carbone Family Auditorium
  1600 Burrstone Road, Utica, NY 13502

GENESEE VALLEY CHAPTER
• Van Lare WWPT Training Room
  1574 Lake Shore Boulevard, Rochester, NY 14617
• Wayne County Public Safety Building
  7376 Route 31, Lyons, NY 14489

LONG ISLAND CHAPTER
• Bergen Point WWPT
  Southwest Sewer District #3, 600 Bergen Avenue, Babylon, NY 12020

LOWER HUDSON CHAPTER
• Slater Chemical Fire Co.
  76 Old Glenham Road, Glenham, NY 12527
• Wallkill Golf Club
  40 Sands Road, Middletown, NY 10941
• Yonkers Joint WWTP
  1 Fernbrook Street, Yonkers, NY 10705

WESTERN CHAPTER
• Fredonia Technology Incubator
  214 Central Avenue, Dunkirk, NY 14048
• Niagara County Fire Training Center
  TBD, Lockport, NY 14094
• Protocol Restaurant
  6766 Transit Road, Williamsville, NY 14221

LOGISTICS
Registration confirmation, directions and other pertinent information will be mailed or e-mailed to the address on the registration form one week prior to each workshop.
Cancellations must be received 10 days in advance of event. Refunds are subject to a $20 administrative fee.
Faculty and Course Titles

- **Anaerobic Digestion Operations and Biogas Safety Training**  
  **Sara Martin, PE, Critical Path Engineering Solutions**  
  Sara Martin is a licensed professional engineer with over 20 years of experience in project development, management and design of various municipal and industrial water, wastewater and utilities projects. Ms. Martin attended Clarkson University where she obtained a Bachelor of Science degree in Civil/Environmental Engineering. She is the owner of Critical Path Engineering Solutions, a Woman-Owned Enterprise specializing in water, wastewater and general infrastructure projects.

- **George Bevington, Barton & Loguidice**  
  George Bevington has over 39 years of experience in the environmental field and possesses a NYS Grade 4A Wastewater Operator license. He has a Bachelor of Science in Civil Engineering from Rochester Institute of Technology in Rochester, NY. Mr. Bevington is employed by Barton and Loguidice serving as a Senior Project Manager in their wastewater division, providing wastewater consulting services to various facilities, specializing in anaerobic digestion of high-strength waste and CHP.

- **Frank DeOrio, Ramboll**  
  Frank DeOrio is a Senior Technical Manager with Ramboll. He has over 40 years of experience in municipal and industrial wastewater treatment including biological and physical-chemical processes, biosolids management, effluent disinfection and anaerobic digestion. He maintains a Professional Wastewater Operator Certification by the Association of Boards of Certification as well as Wastewater Operator Certifications in the states of GA, NY, NJ, PA and MA.

- **Mark Greene, PhD, Ramboll**  
  Dr. Mark Greene is a Subject Matter Expert at Ramboll. He is experienced in the areas of municipal and industrial wastewater treatment, anaerobic digestion for biosolids and high-strength industrial wastewater, as well as environmental process research and development. He has performed original research, project management, technical guidance, feasibility evaluations, treatability studies, field demonstrations, full-scale start-ups, computer modeling and process troubleshooting.

- **Blower Technologies, Selection, and Energy Evaluation**  
  **Jennifer Kintzer, PE, Aerzen USA**  
  Jennifer Kintzer is a professional engineer and manager at Aerzen USA with demonstrated ability in planning, design, and construction of water and wastewater facilities with 27 years of experience in the field. She is a sales professional with the ability to effectively communicate with engineers and utility owners and operators concerning treatment equipment for water and wastewater facilities. Ms. Kintzer is a certified Professional Engineer and Wastewater Treatment Plant Operator in the Commonwealth of Pennsylvania. She holds a Bachelor of Science degree in Civil Engineering Technology from The University of Pittsburgh at Johnstown. Ms. Kintzer is a member of the American Society of Civil Engineers, Society of Women Engineers, Eastern Pennsylvania Water Pollution Control Operators Association, American Water Works Association, Water Environment Federation, and a member of the Editorial Board of Pennsylvania Water Environment Association.

- **Confined Space Awareness**
- **Fundamentals of Occupational Chemical Exposure**
- **Emergency Response and Crisis Management for Water and Wastewater Facilities**  
  **Nellie J. Brown, MS, CIH, Director of Workplace Health and Safety Programs for the Worker Institute**  
  at Cornell University's School of Industrial and Labor Relations, Ithaca, NY  
  Nellie Brown is a certified industrial hygienist, biologist and chemist. Ms. Brown earned her Master’s degree in a multidisciplinary program in natural sciences and applied science from the SUNY College at Buffalo. She has experience as a licensed wastewater treatment plant operator and has been trained as a lead inspector, an HIV/AIDS test counselor and in mold investigations and site assessments.

- **Arthur Wheaton**  
  Arthur Wheaton is the Director of Western NY Labor and Environmental Programs for Cornell University’s School of Industrial and Labor Relations. Mr. Wheaton has a special interest in health and safety programs and committees. His specialty is integrating lean or high performance principles with health and safety programs to provide a safe working environment and enhance quality, productivity and morale. He has a master of science degree in labor relations and human resources from Michigan State University. Mr. Wheaton also holds a bachelor of science degree in Social Science Pre-Law in Economics, History and Political Science from Michigan State University.
• **Green Infrastructure Maintenance**  
  **Cosimo Pagano, Environmental Design & Research (EDR)**  
  Cosimo Pagano is a Project Manager with Environmental Design & Research, Landscape Architecture, Engineering & Environmental Services, D.P.C. (EDR). Mr. Pagano has more than 12 years of experience in the study, design and construction phases of wastewater, stormwater, environmental engineering projects. He is a NYS certified Professional Engineer (PE), Certified Professional in Erosion and Sediment Control (CPESC), Certified Professional in Stormwater Quality (CPSWQ), and a Certified Professional in Municipal Stormwater Management (CPMSM). Mr. Pagano holds a Bachelor of Science degree in Environmental/Civil Engineering from the State University of New York College of Environmental Science and Forestry (SUNY-ESF).

• **Mathematics for Water and Wastewater Operators**  
  **Robert Wither**  
  Robert Wither recently retired after over 34 years of service to the NYS Department of Environmental Conservation in the Bureau of Water Permits, Division of Water. He is a licensed Professional Engineer in New York State. He has a Bachelor of Science degree in Chemical Engineering from Rensselaer Polytechnic Institute, Troy, NY, and is the recent past president of NYWEA. Mr. Wither has extensive experience in permit writing, treatment technology, technical assistance, training, operator certification and data management.

• **Membrane Bioreactors Lunch & Learn Webinar Series**  
  **Kevin Crane, Kubota Membrane USA Corporation**  
  Kevin Crane is Regional Sales Manager for Kubota Membrane USA Corporation. He is responsible for managing sales activities related to advanced wastewater treatment capital equipment sales to municipalities and end users. He interfaces with consulting engineers, regulators and contractors to ensure that projects are delivered to meet permit requirements, specs and budget constraints. He has nearly 20 years of experience in the water/wastewater industry in both the public and private sectors. Mr. Crane holds two certifications – California Grade V Wastewater Treatment Plant Operator and Texas Class A Wastewater Treatment Plant Operator.
