The Western Chapter program committee would like to build upon the successful meetings of 2009 by developing the 2010 calendar of events early in the year. We need additional topics to round out the schedule. We are looking for engineering firms, municipal departments, or vendors to develop meeting content. The committee will continue to coordinate all logistics. If you have an idea for a meeting or if you would like to take the lead on a meeting, please contact Paul McGarvey (paul.mcgarvey@ghd.com), Joe Fiegl (joseph.fiegl@erie.gov), Jeff Angiel (jangiel@amherst.ny.us), or Tim Lockhart (lockhart13@msn.com).
