

SEE THE WORLD in a DIFFERENT WAY for the REST of YOUR LIFE!

As part of NYWEA's Work in Water program, we are looking for students interested in a Summer 2024 internship to learn about water quality management. Are you interested in seeing first hand the skills, technology and people working to ensure the water we use is recycled properly? Don't miss this unique opportunity!

Interested students need to [apply here](#) by May 26th.

For more information, visit nywea.org

Made possible by a grant from the Water Environment Federation.
